

## TRANSICON achieves ISO 9001:2015

Transicon Limited have always been a customer focussed company, realising many years ago that our success as a business comes as a direct result of working to fulfil, above all, the needs of our customers. Over 50 years in industry, growing to the company we are today tells us that this is the right approach to take, but this experience has also taught us that there is no room for complacency. We are aware that to continue growing, and to remain successful in business for the next 50 years, we must continually strive to better tailor our ways of working to meet our customer's ever-changing needs while ensuring that we work in a predictable manner to provide customers with certainty at all times.

For this reason, partnering with BSi, we have undertaken and achieved 'QUALITY MANAGEMENT SYSTEM - ISO 9001:2015' Accreditation as a mark of our full commitment to ensuring we are not only geared to working in a manner which benefits our customers, but that we are also able to evidentially demonstrate, rather than simply being able to imply, infer or suggest, this.

Achieving ISO 9001:2015 will not fundamentally change the way we work day-to-day as we have for many years used ISO 9001:2015 as the standard by which to measure our performance. Certification simply formalises systems we already had in place, providing clear evidence where we once were able to offer internal documentation and assurances. This can only serve to build our customers faith in us as a business partner who they can work with.

Our QMS ensures processes are in place to structure the main areas of our business, making us easy for customers to work with and meeting the social responsibilities of a modern, forward thinking business, while always maintaining our core precepts:

- **Client focus:** As an organisation, we have made a commitment to understand our current and future clients' needs, meet their requirements and strive to exceed their expectations.
- **Leadership:** Our Top Management are committed to creating and maintaining a working environment where people become fully involved in achieving our objectives.
- **Engagement of people:** We recognise that people are the essence of any good business and that their full involvement enables their abilities to be used for our benefit.
- **Process approach:** We understand that a desired result is achieved more efficiently when activities and related resources are managed as a process or series of interconnected processes.
- **Improvement:** We are committed to achieving continual improvement across all aspects of our quality management system. It is one of our main annual objectives.
- **Evidence-based decision making:** We are committed to making decisions relating to our quality system following an analysis of relevant data and information.
- **Relationship management:** Transicon Limited recognizes that an organization and the relationship it has with its external providers are interdependent and that a mutually beneficial relationship enhances the ability of both to create value.

Certificate Number: FM 14643

Transicon - BSi ISO 9001:2015

Certificate Number FM 14643

By Royal Charter

# Certificate of Registration

QUALITY MANAGEMENT SYSTEM - ISO 9001:2015
